NATIONAL FABRICATORS

Furnishing For Garment Industries

Led by Mr. Ashif Khan, National Fabricators has built a strong reputation for quality, innovation, and reliability. His expertise and commitment to excellence have helped establish lasting relationships with some of the industry's leading brands.

Established in 1998, National Fabricators is one of the leading manufacturers and suppliers of high-quality Checking Tables, Washing Trolleys, and a wide range of equipment for the garment, clothing, and textile industries.

With over two decades of industry experience, we are committed to delivering products that combine quality, durability, and functionality. Every product is manufactured using premium materials and modern production techniques to meet the highest industry standards.

Why Choose Us?

Our product range is available in various sizes, designs, and specifications to suit different manufacturing requirements. Designed for long-lasting performance, our products are known for their corrosion resistance, robust construction, smooth finish, ergonomic design, and low maintenance.

Beyond Checking Tables and Washing Trolleys, we offer a complete range of material handling and production support equipment for the garment industry. With modern manufacturing and customer satisfaction, we provide reliable solutions that enhance productivity and streamline manufacturing operations.

Garment Manufacturers
Industrial Clothing Lines

OUR JOURNEY

A journey of passion, progress and purpose from humble beginnings to industry leadership.

Started with small-scale fabrication operations.

Advanced fabrication setup and higher capacity.

Expanded operations with customized solutions.

INFRASTRUCTURE

Advanced Manufacturing Infrastructure

Our state-of-the-art manufacturing facility is equipped with modern machinery, advanced fabrication tools, and efficient production systems that enable us to deliver high-quality industrial furniture solutions with consistency and precision.

The production process is managed by skilled technicians and experienced professionals who ensure every product meets strict quality and durability standards. Our organized manufacturing setup allows us to handle both standard and large-scale customized orders efficiently.

LINE PRODUCTION Tables

Engineered for modern garment production lines, ensuring **smooth workflow, efficient material handling, and organized operations.**

Built for durability and operator comfort, helping improve productivity and maintain consistent manufacturing performance.
